Welcome to EDUTEL: Your one-stop educational service

EDUTEL's vision is to make education truly accessible and to debunk the notion that education belongs in an ivory tower. EDUTEL is fast changing traditional ideas about education, and, more specifically, the ways in which people of all walks of life can now engage in every aspect of life-long learning at its very best.

EDUTEL is the embodiment of sound educational design and planning, the integration of both practical and intellectual minds, and, moreover, the exemplification of real collaboration.

EDUTEL, simply put, is an educational service that enables employers to concentrate on their core business, while EDUTEL takes care of every aspect of learning and training at the various levels of competency – efficiently and cost-effectively – and always according to employers' specific needs in the workplace.

EDUTEL collaborates with various formal and non-formal educational institutions, empowering students and business environments alike, with sound advice, training and, increasingly, the facilitation of training.

Central to EDUTEL's overarching vision and mission of greater educational access is the notion that all learning should be skills-based, outcomes-based, or, if you like, purpose- based – clearly defined in terms of the learner's profile, his/her weaknesses and strengths, and geared to the most effective ways in which life-long learning could facilitate a more complete individual and, in fact, an able and productive contributor to South Africa's economy.

Considering that all EDUTEL's listed programmes and courses are designed in accordance with the requirements and principles set by the Education Act, the National Qualifications Framework, South African Qualifications Authority, and internationally benchmarked, it becomes even clearer that this one-stop educational service is indeed the result of careful planning.

These successes are the result of EDUTEL's sound organisational and administrative structure, its extended academic networks and access to the best and biggest variety of venues through sound collaboration, its infrastructure and, therefore, its ability to identify specific needs in the workplace and the greater South African and international labour market.

WHAT IF I CAN DO CERTAIN ACTIVITIES ALREADY?

You will be able to apply for RPL assessment against certain unit standards. This means that evidence of your experience and previous studies could be used for an assessment process in order to declare you competent. This process is called Recognition of Prior Learning.

HOW TO APPLY FOR RPL

Pre-entry phase
- The learner applies for assessment for recognition of learning.
- The learner is given the necessary information.
- A preliminary screening process takes place where the viability of an RPL assessment is determined.

Advice phase
- The evidence facilitator assists the candidate with the gathering of evidence and presentation of the Portfolio of Evidence.
- The function of the evidence facilitator is clearly defined as one of support and advice through the accumulation of evidence.
- The evidence facilitator only facilitates theprocess of evidence gathering: thecandidate has the responsibility of undertaking this task.

Assessment phase
- The candidate compiles and submits a portfolio.
- The registered assessor assesses the portfolio.
- The assessor and the evidence facilitator will not be the same person.
  1. Competent – Assessor records results and submits candidate's evidence for   moderation.
  2. Not yet competent – Assessor requests more evidence or sets further assessment activities.

Moderation phase
- The moderator moderates the assessment process.
- The moderator makes recommendations where necessary.
- The declaration of competence is confirmed.

Certification phase
- The candidate is issued with a certificate of competence.
- The necessary data is uploaded to the NLRD.

WHEN CAN I REGISTER?

Anytime you are ready.

DO I HAVE TO BUY EXTRA BOOKS?

No, all material will be provided.

DO I HAVE TO BE WORKING BEFORE I REGISTER?

You must preferably be working in the relevant industry in order to gain the practical experience. Should you not be working in the industry and you only want to gain the knowledge component, you may register, but you will only receive a certificate to indicate that you have completed the knowledge component of the skills programme or qualification. You will only earn the credits linked to a unit standard of the qualification once you have also been declared competent on the workplace assessment (Portfolio of Evidence).

COMPETENCY-BASED EDUCATION

The courses listed are all competence-based. This means that learners must not only be declared competent on the knowledge component, but also the practical component of each unit standard.

Learners first do the knowledge component and add the practical later.

LANGUAGE POLICY

Our language of tuition is English.

CANCELLATION POLICY

Cancellations of course fees will not be accepted once you are accepted and registered as a learner. Consideration will only be given to exceptional cases. You may cancel your studies, but you will remain liable to pay your course fees.

LEARNERS' FINANCIAL AID

Learners can arrange to pay their course fees by bank debit order, cash monthly, cash in advance, credit card or, in some cases, by salary stop order (Fundi). Learners can apply for study loans at various financial institutions, including their employer (should they have such a system in place). PSETA may also make grants available from time to time.

STUDENTS SUPPORT SERVICES

Learners will be supported by our call centre at (011) 760-4251 should they need any assistance. Learners can also make an appointment with their facilitator/assessor should they so choose.

EMPLOYMENT OPPORTUNITIES

Should you be presently unemployed you may apply to Edutel to have your details placed on our employment database for employers to consider.

ONLINE LEARNING

In some cases online learning sessions will be arranged to support limited contact learners and learners living in remote areas. In order to take part in the online learning you will need access to a computer, internet connection, speakers, etc. If online learning support will be part of your course, you will be notified with registration.

All broadcasts will be put on Edutel's website for later viewing by learners who missed the broadcast.

(4) Recognition of Prior Learning: The key to your future learning

WHAT IT IS

Commonly called RPL, Recognition of Prior Learning is a mechanism which provides for acknowledgement of a person's knowledge and skills which might not have been acquired through formal training.

SAQA's definition of RPL states "Recognition of Prior Learning means the comparison of the previous learning and experience of a learner howsoever obtained against the learning outcomes required for a specified qualification, and the acceptance for purposes of qualification of that which meets the requirements." This means that regardless of where, when or how a person achieved the learning, if such learning meets the requirements of a unit standard or a qualification, it could be recognised for credits.

RPL is therefore a form of assessment for persons who have not attended training but still wish to be acknowledged for their current knowledge and skills in a particular area.

HOW IT WORKS

The SAQA RPL policy states: "there is no fundamental difference in the assessment of previously acquired skills and knowledge and the assessment of skills and knowledge acquired through a current learning programme. The candidate seeking credits for previously acquired skills and knowledge must still comply with all the requirements as stated in unit standards and qualifications. The difference lies in the route to the assessment.

We've already stated, RPL is an assessment process, and as such, the persons applying for RPL must understand that they will have to undergo some form of assessment to ensure that the required knowledge and skills are still current. Edutel's RPL assessment mainly consists of Questioning and Workplace Observation as methods of gathering the evidence to prove the candidate's competence. This means that the candidate will most probably be observed while he/she is working and his/her line manager will complete a form indicating what the person can do. The person will also have to complete either a knowledge test, case study questions or an assignment (or a combination of these) in order for the assessor to check that the knowledge or theory needed to use the skills properly is up to date.

With Edutel there is a specific procedure which needs to be followed in order for the RPL assessment process to take place. It looks like this:
1. A prospective candidate, who knows that he/she most probably qualifies for RPL applies to Edutel by completing the relevant Application.
2. Once the file has been reviewed and approved, the potential candidate meets with an RPL Advisor, who explains the skills and knowledge requirements and checks whether the person does, in fact, have these at present. This is called the Screening process.
3. If the person has some major gaps in knowledge and skills, he/she is advised to attend training to fill these gaps and come back later for RPL.
4. If the person meets requirements, then the process is put in motion.
5. The successful candidate will be given thorough preparation for the assessment which lies ahead and all concerns which the person might have are ironed out.
6. Then the evidence collection phase starts. At this point the Evidence Facilitator in the workplace (who might be the line manager) is trained on how to assist the candidate to collect the required evidence.
7. 7. The evidence is collected over a period of time (which was agreed upon during assessment preparation) and this is all submitted to Edutel for formal assessment.
8. The assessment is done by a registered assessor, who makes a judgement as to whether the evidence

submitted by the candidate covers all the requirements of the unit standard or qualification.

9. If it does, the candidate is declared Competent and, in due course, can celebrate his/her achievement.

10. If the evidence does not meet requirements, the candidate is given advice and support on what extra evidence is required and how to go about collecting this. Steps 7 to 9 then apply.

Do not think that the RPL process is easy or quick. The candidate must focus on that evidence is needed and cannot merely produce a few pieces of paper and think that he/she is Competent. It takes time and thought on the part of all concerned to successfully complete an RPL process. But the results are wonderful!

WHAT IT COSTS

Just as the process is not a speedy one, so the costs are not excessively cheap. However, it is definitely less expensive than attending a formal workshop and then undergoing the assessment. It's not only the actual costing which needs to be taken in consideration. The hidden costs of being out of the workplace for formal training and therefore not being productive also have to be kept in mind.

IS IT WORTH IT?

Definitely! Imagine: perhaps a full qualification which acknowledges your knowledge and skills without you having been in a classroom or undergoing coaching.......

⑤ Foundational Learning Programme

WHAT IS FOUNDATIONAL LEARNING COMPETENCE (FLC)?

Foundational Learning Competence is a part qualification consisting of two learning areas: Communications and Mathematical Literacy. It describes the minimum competence needed in these two key areas, required by people to function optimally in the world of work. The FLC describes the minimum competence required of learners to deal successfully with occupational learning at NQF Levels 2-4.

The school-leaving qualification, the National Senior Certificate, is registered at NQF Level 4. Hence the Foundational Learning Competence addresses the needs of learners in the occupational qualifications that are registered on the NQF at Levels 2, 3 and 4, i.e. below Grade 12.

The Foundational Learning Competence is a compulsory part of all new qualifications developed under the auspices of the Quality Council for Trades and Occupations (QCTO) at NQF levels 3 and 4. This does not mean that developers of qualifications at NQF Level 2 cannot include Foundational Learning as a requirement. It has replaced the 'fundamentals' in Mathematics and Communications, required previously in all qualifications at NQF Levels 1 to 4.

This is a part qualification registered at NQF Level 2. It has a credit value of 40, 20 for Foundational Learning Competence in Communications and 20 for Foundational Learning Competence in Mathematical Literacy.

WHAT IS THE RATIONALE FOR REQUIRING LEARNERS TO COMPLETE FOUNDATIONAL LEARNING COMPETENCE?

The skills developed in the two learning areas, Communications and Mathematical Literacy, have been identified as foundational for learners wanting to progress in their occupation and skills development.

There is ample research that shows that language proficiency is closely aligned to success in learning in other areas. Historical educational backlogs which resulted from an unfair education dispensation have resulted in many adult learners having a gap in their understanding of and ability to apply language and mathematical literacy concepts in the workplace. While learners may be ready for training at the required level in the technical or practical aspects of a qualification, i.e. they are able to 'do', very often their language skills in English (normally the language of teaching and learning) are at a much lower level. This causes many problems in relation to dealing with the theoretical concepts in the learning material and the acquisition of new skills and knowledge in occupational training. Similarly occupational training does require an understanding of numbers and knowledge and how to work with numbers especially in key areas of measurement and quantity.

In 2007 the process for the development of the Foundational Learning Competence (FLC) was implemented by the Department of Labour. The FLC has replaced the fundamental unit standards in Mathematics and Communications that were required in all SAQA qualifications at NQF Levels 1-4. This decision was taken essentially because the fundamental unit standards were not done for a variety of reasons and had become a blockage in the system. A key reason for this was because learners were required to study mathematics or language skills that were unnecessary for their specific occupational needs. Hence there are many South Africans who have been denied qualifications in occupations and trades at NQF levels 2, 3 and 4 because they are unable to achieve the compulsory fundamental requirements at all four levels of the FET band for mathematical literacy and language.

The FLC is more focussed and directed to the minimum competence required in each area in order

to function optimally in the world of work. It hence supports the objectives of the NQF that the fundamental unit standards were intended to achieve in terms of redress, access to meaningful learning, the achievement of qualifications and providing a basis for lifelong learning.

Once a learner has completed the FLC, s/he does not have to do it again, even if the learner moves onto a qualification registered at a higher level, up to and including NQF Level 4.

The Foundational Learning Competence is designed to address occupational needs and hence has no direct equivalent in the traditional schooling sector.

WHAT IS FOUNDATIONAL LEARNING COMPETENCE IN COMMUNICATIONS?

The Foundational Learning Competence in Communications describes the knowledge of language and the thinking processes required to communicate effectively in the workplace.

FLC Communications provides the basis in the language of instruction to enable a learner to deal effectively with occupational training, and communication in the workplace. The purpose of this component is to enable individuals to deal confidently and successfully with the language of learning and teaching (LOLT) of formal occupational training, in relation to oral skills, reading and writing. It is the language of most external assessments such as trade tests. People who attend a FLC learning programme are given practice in speaking, listening, reading and writing meaningfully and effectively in the language of instruction. Once they have achieved their part qualification in Communications they will be able, more easily, to progress further in their chosen occupational pathways and workplace contexts.

The FLC is not ABET. Communications in ABET and NQF Level 1 focus on using reading for learning rather than learning how to read. So while the function of reading programmes up to and including NQF Level 1 focused on being able to identify the vocabulary and the language structures in context, so as to be able to understand and comprehend what was being said, the focus in Foundational Learning Competence is to read for information. Gathering information is not only about extracting relevant information from a text but also to infer meaning, to use the information gathered to make deductions, to develop the logic of an argument, to organise thinking and to extract the key messages from an extended piece of writing.

The content of the FLC Communications learning programme covers the following:
• Writing
• Speaking and listening
• Visual literacy
• Language structure and usage
• Study skills
• Workplace terminology

WHAT IS FOUNDATIONAL LEARNING COMPETENCE IN MATHEMATICAL LITERACY?

The Foundational Learning Competence in Mathematical Literacy is the minimum, generic mathematical literacy that will provide learners with an adequate foundation to cope with the mathematical demands of occupational training and to engage meaningfully in real-life situations involving mathematics.

Foundational Mathematical Literacy will also serve as the foundation for further development of an individual in mathematical literacy contexts and mathematical concepts that may be specific to an occupation or trade.

Individuals who have met all the requirements of Foundational Mathematical Literacy are able to solve problems in real contexts by responding to information about mathematical ideas that are presented in a variety of ways. Individuals will solve problems by defining the problem, analysing and making sense of the information provided, planning on how to solve the problem, executing their plan, interpreting and evaluating the results, and justifying the method and solution. Using their mathematical literacy and understanding of numbers, they will make sense of the workplace and the world in which they live.

The content of the FLC: Mathematical Literacy curriculum covers the following:
• Number and quantity
• Finance
• Data and chance
• Measurement
• Space and shape
• Patterns and relationships

In solving problems, individuals will apply skills such as identifying or locating relevant information, ordering, sorting, comparing, counting, estimating, computing, measuring, modelling, interpreting and communicating.

WHAT LEVEL OF COMPETENCE SHOULD BE IN PLACE BEFORE A LEARNER ENTERS A FOUNDATIONAL LEARNING COMPETENCE LEARNING PROGRAMME?

A learner who is competent at ABET Level 3 in the learning area should be able to manage the FLC learning programme. The Foundational Learning Competence assumes that learners entering a foundational learning programme have a minimum competence level in the relevant learning area at ABET Level 3 or its equivalent. This is not a formal certification requirement, as there are no certification requirements for entry to the external assessment process.

WHAT IS THE EXTERNAL ASSESSMENT FOR FOUNDATIONAL LEARNING COMPETENCE?

Each learning area has an external assessment. The final assessment in each learning area consists of 60 questions in a multiple-choice format. Each external assessment is 2,5 hours in length.

The two subject areas of Foundational Learning Competence in Communications and Foundational Learning Competence in Mathematical Literacy are assessed separately. Each subject has an external assessment conducted at IEB recognised assessment centres nationally. Edutel is registered as an assessment centre for IEB.

The purpose of these assessments is to check whether learners are proficient enough in the foundational skills and knowledge of each learning area in order to engage effectively in formal occupational training. The assessment model that has been adopted is intended to support occupational skills development, and is therefore based on practical needs which require that the tests:
• are available regularly and in the long term, electronically, on demand;
• have a quick turn-around time for have a quick turn-around time for delivery of results;
• are relatively inexpensive and easy to administer.

To meet these requirements the assessments are in a multiple-choice, machine-scored format.

The key feature of such a model is the ongoing building of a bank of trailed assessment items that can be used in various permutations. The questions are based on the curricula of the Foundational Learning Competence in the relevant learning area. They are proficiency assessments, aiming to test the state of

readiness to embark on learning rather than assessment of completed learning.

The items have different levels of complexity. The test specifications indicate how many questions at each level of complexity must be included in the test. The following area the ratings of achievement:

80%-100%   Competent Outstanding (CO)
70%-79%   Competent Commendable (CC)
50%-69%   Competent Adequate (CA)
40%-49%   Not Competent Threshold (NCT)
Less than 40%   Not Yet Competent (NYC)

Exemplar papers are available from the IEB website (www.ieb.co.za).

6   Facilitating skills development in the workplace

SKILLS DEVELOPMENT FACILITATOR

WHY DO THIS LEARNING PROGRAMME?

The Skills Development Act of 1998 brought into being the new function of the Skills Development Facilitator, a person who is qualified or experienced at NQF level 05 or higher (i.e. post-matriculation), and who is responsible, within an organisation, for developing that organisation's annual Workplace Skills Plan, and for managing the financial Skills Development Levy refund process on behalf of the organisation.

WHO WOULD BE ABLE TO MAKE USE OF THIS LEARNING?

The job requires good interpersonal and communication skills, and the ability to keep track of a wide range of training and financial records, using computer technology. The person in the organisation who works with human resource development and training issues would be the ideal candidate for this learning programme.

HOW IS THIS LEARNING PROGRAMME STRUCTURED?

The programme is based on the outcomes of the following newly registered SDF unit standards:
- 252041 Promote a learning culture in an organisation, NQF 05 (5 credits)
- 15221 Provide information and advice regarding skills development and related issues, NQF 05 (4 credits)
- 15232 Co-ordinate planned skills development interventions in an organisation, NQF 05 (6 credits)
- 15217 Develop an organisational training and development plan, NQF 05 (6 credits)
- 15228 Advise on the establishment and implementation of a quality management system for skills development practices in an organisation, NQF 05 (10 credits)
- 15227 Conduct skills development administration in an organisation, NQF 04
- (4 credits)

WHAT ENTRY REQUIREMENTS MUST I FULFIL?

You need to be computer-literate, to understand the nature of the business, and to have access to both employees and management at every level of the organisation.

WHAT WILL I BE ABLE TO DO AT THE END OF THE LEARNING?

You will be able to conduct a skills audit in your workplace and, from that, compile a workplace skills plan for submission to your relevant SETA. You will then be able to implement the training as planned and keep tract of all the skills development interventions taking place. Finally, you will be able to submit the annual report to the SETA in order to access skills development levy money – it is the right of the organisation.

HOW LONG WILL I BE BUSY?

The instructional learning part of this programme is covered in a three-day intensive small-group training intervention. From then you will have a year in which to produce the evidence for your Portfolio. (Optional: 1-day portfolio-building workshop).

OTHER GOOD NEWS

Although there is, as yet, no formal qualification for the SDF, you will be able to
register with your relevant SETA as an SDF and you might even become a preferred SDF with the ETQA of
the SETA.

ACCREDITATION STATUS

The programme is approved by the ETDP SETA ETQA.

RULES RELATING TO ASSESSMENT, ACADEMIC CREDIT, PROGRESSION AND QUALIFICATION

Learners will be assessed by completing a knowledge questionnaire and compiling
Portfolios of Evidence. Once you have been declared competent and your assessment outcome has
been verified by the ETDP SETA you will earn the credits linked to unit standards making up your skills
programme/qualification. These credits will be registered on the National Learners' Records Database
and will always remain to your credit. Should you want to continue with your studies, you will be able to
apply for RPL/credits for what you have already achieved if it forms part of that qualification's curriculum.
This skills programme/qualification will serve as an entry requirement for follow-up skills programmes/
qualifications specialising in the same field at a higher level.

7 Designing and Developing Learning Programmes

PROGRAMME DESIGNER AND PROGRAMME AND MATERIALS DEVELOPER

WHY DO THIS COURSE?

The art of designing and developing a learning programme within outcomes-based education and training involves identifying the outcomes to be achieved by the learner before planning the training. This means that all aspects of the learning programme will be based on the outcomes. The practitioner, therefore, requires in-depth knowledge and skills to follow the process of developing an effective outcomes-based learning programme at the required learning materials.
This stimulating programme gives you these skills.

WHO WOULD BE ABLE TO MAKE USE OF THIS LEARNING?

Any trainer who has to put together a training programme in the workplace, will benefit from learning how to define learning outcomes and following the correct steps towards developing a programme.

HOW IS THIS LEARNING PROGRAMME STRUCTURED?

The programme is based on these outcomes:
*   Draft learning outcomes for the programme.
*   Conduct analysis for the learning design.
*   Design the learning programme.
*   Draft a brief for the development of the learning programme.
*   Evaluate the learning design.
*   Plan and prepare for development.
*   Develop learning materials.
*   Develop learning facilitation guidelines.
*   Pilot and evaluate the development.

The programme is currently based on the unit standards "Design outcomes-based learning programmes" ID 123401, NQF 06 (15 credits) and "Develop outcomes-based learning programmes" ID 123394, NQF 05 (10 credits).

HOW LONG WILL I BE BUSY?

The instructional learning part of this programme is covered in a four-day intensive training session where you will be expected to consider a relevant learning programme from your own workplace. You will also be interacting with a workbook which gives you the structure of your learning programme. Then you will develop your own learning programme over six months. (Optional: oneday portfolio-building workshop).

WHAT ENTRY REQUIREMENTS MUST I FULFIL?

All you require is the necessary subject matter expertise. Edutel provides the rest.

WHAT WILL I BE ABLE TO DO AT THE END OF THE LEARNING?

You will be able to formulate learning outcomes correctly and then use these to develop the programme and the materials. You will be able to devise facilitation and assessment strategies and compile all relevant documents for the learning intervention – not only printed media, but other media too, such as videos and computer-based materials.

OTHER GOOD NEWS

You will be able to use these skills in every sector of the world of work, whether you are developing a major programme or merely a one-day intensive course.

ACCREDITATION STATUS

The programme is approved by the ETDP SETA ETQA.

RULES RELATING TO ASSESSMENT, ACADEMIC CREDIT, PROGRESSION AND QUALIFICATION

Learners will be assessed by completing a knowledge questionnaire and compiling Portfolios of Evidence. Once you have been declared competent and your assessment outcome has been verified by the ETDP SETA you will earn the credits linked to unit standards making up your skills programme/qualification. WHY DO THIS COURSE?

"Recognition of Prior Learning in South Africa has, unlike similar initiatives in other countries, a very specific agenda. RPL is meant to support transformation of the education and training system of the country. This calls for an approach to the development of RPL policy and practices that explicitly addresses the visible and invisible barriers to learning and assessment. Such an approach must generate the commitment of all role players to remove these barriers and to build a visible, usable and credible system as an effective and creative vehicle for lifelong learning. It is important that consensus be generated around the criteria and support systems within which the integrity and quality of all assessments will be protected."
SAQA RPL policy (2002, p. 11).

Note: Learners will have to prove competence in the foundation learning programme before they will be certified by the QCTO. Please see information regarding FLC on page 14.

WHY DO THIS QUALIFICATION?

A Work Based Learning and Development Practitioner plans for, conducts and administers work-based learning interventions. This skills programme recognises the need for qualified practitioners that are competent in planning and facilitating work-based learning interventions. Within the scope of human development there is justifiable space for Work Based Learning and Development Practice, because of the nature of the context within the South African environment which favours skills development on the BEE score card. Companies stand to gain incentives and favourable tax gains because of the extent to which a company invests in its workers and works towards the improvement of their skills and competencies. Work Based Learning and Development Practitioners can assist in this process. Employers may participate in a grant disbursement scheme which encourages workplace learning, this is better coordinated by a qualified Work Based Learning and Development Practitioner to maximise on the opportunity and build human capacity for economic advancement. There is no similar skills programme registered on the NQF. Qualified Practitioners will be able to support workplaces and learners with the implementation of work experience components of learnerships, internships and apprenticeships and support organisational growth and career development in general. Society will benefit because existing employees and incoming new employees will be supported to reach potential, grow and develop for the retention of skills and growth of the economy. Typical learners include post school learners and college graduates on NQF Level 4 or equivalent with an interest in human development.

Many of the skills development priorities, nationally and within companies and organisations, are met through the efforts of learning and development practitioners, and this qualification addresss the key competencies of such practitioners.

The qualification will increase the employment prospects of Occupational Learning practitioners, while helping to ensure quality and competence within the Occupational Learning field. The qualification further supports the continued development of key established employment opportunities associated with ccupationally directed education and training, including, skills development facilitation, assessment practitioners and Skills Development Facilitator (SDF) practitioners as part qualifications.

The qualification also places emphasis on the educational strategy that provides learners with real-life work experiences where they can apply knowledge and technical skills, and develop their employability through work based learning. This qualification recognises the need for qualified practitioners that are competent in planning and facilitating work based learning interventions, as a part qualification. This will achieve the need for qualified persons who are able to support workplaces and learners with the implementation of work experience components of learnerships, internships and apprenticeships.

The qualification is designed to meet the competency profile of persons delivering learning and development services, at the interface of the delivery of learning and development services within the occupational qualification framework. This recognises a further need for professional development at higher levels of learning and development research, planning, design and impact assessment.

SKILLS DEVELOPMENT FACILITATOR (BASED ON 6 UNIT STANDARDS)

WHY DO THIS QUALIFICATION?

The Skills Development Act of 1998 brought into being the new function of Skills Development Facilitator, a person who is qualified or experienced at NQF level 5 or higher (i.e. post-matriculation), and who is responsible, within an organisation, for
developing that organisation's annual Workplace Skills Plan, and for managing the financial Skills Development Levy refund process on behalf of the organisation. Although there is, as yet, no formal registered qualification for the SDF, you will be able to register with your relevant SETA as an SDF.

WHO WOULD BE ABLE TO MAKE USE OF THIS LEARNING?

Any person in the organisation who is involved in the personal development plans and training requirements of employees. An example of this could be an educator in a school or FET college who is involved in the IQMS process.

The job requires good interpersonal and communication skills, and the ability to keep track of a wide range of training and financial records, using computer technology.

HOW IS THIS COURSE STRUCTURED?

The programme is based on the outcomes of the following newly registered SDF unit standards:

- 252041 Promote a learning culture in an organisation, NQF 05 (5 credits)
- 15221 Provide information and advice regarding skills development and related issues, NQF 05 (4 credits)
- 15232 Coordinate planned skills development interventions in an organisation, NQF 05 (6 credits)
- 15217 Develop an organisational training and development plan, NQF 05 (6 credits)
- 15228 Advise on the establishment and implementation of a quality management system for skills development practices in an organisation, NQF 05 (10 credits)
- 15227 Conduct skills development administration in an organisation, NQF 04 (4 credits)

You will receive your manuals, videos, workbooks and other training material as soon as you have registered. You will also receive portfolio templates which will need to be completed for each unit standard. Instructions on how to compile a portfolio of evidence are included. You can then work at your own pace and complete each portfolio of evidence separately and submit these for assessment.

HOW LONG WILL I BE BUSY?

You will have 18 months in which to produce the evidence for your portfolio because the cycle of the SDF's work is one year long, beginning with the skills audit and ending with the submission of the annual training report. During this time you must collect evidence of the processes followed.

WHAT ENTRY REQUIREMENTS MUST I FULFIL?

The person who attends the training needs to be computer-literate, understand the nature of the organisation's business, and have access to both employees and management at every level of the organisation.

WHAT WILL I BE ABLE TO DO AT THE END OF THE LEARNING?

You will be able to:
- conduct a skills audit in your workplace;
- compile a workplace skills plan for submission to your respective SETA;
- implement the training as planned;
- keep track of all the skills development interventions taking place;
- submit the annual report to the SETA in order to access the skills development levy funds;

26 Develop, support and promote RPL practices

WHY DO THIS COURSE?

"Recognition of Prior Learning in South Africa has, unlike similar initiatives in other countries, a very specific agenda. RPL is meant to support transformation of the education and training system of the country. This calls for an approach to the development of RPL policy and practices that explicitly addresses the visible and invisible barriers to learning and assessment. Such an approach must generate the commitment of all role players to remove these barriers and to build a visible, usable and credible system as an effective and creative vehicle for lifelong learning. It is important that consensus be generated around the criteria and support systems within which the integrity and quality of all assessments will be protected." SAQA RPL policy (2002,p. 11).

WHO WOULD BE ABLE TO MAKE USE OF THIS LEARNING?

This unit standard aims to recognize the expertise of people who have a deep understanding of outcomes-based assessment in general, and of the complexities concerning the initiation and implementation of Recognition of Prior Learning (RPL) policies and practices in particular. Such people are able to promote an awareness of RPL-related issues and provide RPL advice and support, at systems and strategic level, to a range of people/bodies, including assessors, moderators, evidence facilitators, assessment designers, teachers, trainers, managers, organisations, institutions, companies and enterprises.

HOW IS THIS COURSE STRUCTURED?

The course is based on the unit standard called "Develop, support and promote RPL practices" (Unit Standard 116587 on NQF Level 07, 10 credits).

WHAT ENTRY REQUIREMENTS MUST I FULFIL?

You must understand and can practice the key principles of an outcomes-based system in general, and standards-based assessment in particular.

WHAT WILL I BE ABLE TO DO AT THE END OF THE LEARNING?

You will be able to demonstrate understanding of the conceptual underpinnings and purposes of the recognition of prior learning, develop RPL policies, procedures and plans for an organisation, investigate current RPL practice and opportunities in an organisation or sector, provide RPL advice and support and promote RPL practices.

HOW LONG WILL I BE BUSY?

Four days of workshop-based activities will give you the basic skills to develop the RPL instruments, support those using them and promote the implementation of RPL.

ACCREDITATION STATUS

The programme is approved by the ETDP SETA ETQA.
